API
DELTA CHAPTER
NEWSLETTER

JULY 2016

A LETTER FROM THE CHAIRMAN

Dear Fellow API Delta Chapter Members,

2016 has proven to be a challenging year in the oil and gas industry. We have been faced with many changes – whether it has been downsizing, organizational focus, or worst case, job loss. Although many of us do not like change, I encourage you to understand that change is inevitable and embrace it. This may be your opportunity to make a change for the better. The API Delta Chapter is a great avenue for networking with other industry professionals, so join us as we come together to support our industry.

The Meritorious Service Awards luncheon was held in March at the Holiday Inn Downtown New Orleans to recognize Mr. Tom Bergeon for his service to our industry and community. Also present were representatives from both The Louisiana Children’s Museum and the Children’s Museum of St. Tammany, who shared their plans for the Energy exhibits at their new museums.

In February, we awarded 6 awards totaling \$500 to the GNOSEF to individuals and teachers that had outstanding projects in the energy sector. In April, we held our annual Clay Shoot at Covey Rise. Thank you to all who supported this event! In May, API awarded \$20,000 to 22 college students. Each and every awardee has a bright future ahead of them, and our chapter is proud to play a role in their educational needs. Also in May, API Delta Chapter participated in the PIPE Family Fun & Eat Run that supports the area children’s museums. The event was a huge success and plans are underway to make this an annual event. In June, we held our annual Teacher Excellence Award Program at the Louisiana Children’s Museum in New Orleans. We awarded 24 teachers with awards totaling \$9,000. These awards assist these teachers in their admirable effort to go above and beyond the call of duty in their classrooms. Thank you to all the teachers and administration that participated in this program.

The API Delta Chapter has also contributed over \$20,000 this year to the Louisiana Children’s Museum, Children’s Museum of St. Tammany, and the BCCM Children’s Museum. We could not do this without the support that we receive from our members and community.

Even though our industry is in the midst of change, the API Delta Chapter remains committed to supporting the students, teachers and programs in our community that fit our mission – to encourage education, support our industry, and enhance our community

Please join us for our upcoming events. There are two more luncheons hosted by API this year: the Technical Luncheon will be held on August 23rd and will feature Mr. Travis Flowers with Chevron Upstream giving our keynote address on the Jack St. Malo project. The Joint Society Luncheon is scheduled for November 9th at the Marriott Downtown New Orleans. We will have another fundraising event in September: the API Delta Chapter Annual Golf Tournament will be held on September 16th at the Covington Country Club.

Thank each and every one of you for your continued support of the API Delta Chapter. We look forward to the rest of the year!

TESSA WIGGINS

Strategic Accounts Manager
Viking Pump—A Unit of IDEX Corporation

API DELTA CHAPTER—JULY 2016 EDITION

2016 TECHNICAL MEETING

DETAILS

Meeting date – August 23, 2016

Location – Holiday Inn Downtown

Pricing – \$35 members, pre-pay; \$45 non-members and walk-ins

Speaker / Topic – Travis Flowers, Jack / St. Malo Asset Manager

MENU

Chicken Sauce Piquant Served over Wild Rice and Bacon

Braised Haricot Vert Topped by Tangy Piquant Sauce, Mildly Seasoned

Salad

Cheesecake with Fresh Strawberry Glaze

Tea and Coffee

JACK / ST. MALO: FIRST 18 MONTHS OF PERFORMANCE AND THE JOURNEY THAT STILL LIES AHEAD

**Travis Flowers,
Asset Manager**

This discussion will cover early performance learnings on one of the newest deepwater projects in the Gulf of Mexico. The Jack and St. Malo fields are examples of deepwater low permeability Wilcox developments that have overcome technology challenges to unlock significant in-place oil volumes. 280 miles south of New Orleans, at 30,000' total depth beneath 7,000' of water lies more than 1,000' of high pressure, low permeability oil pay across two sizable structures. The technologies and innovation deployed across all disciplines has established strong early life performance; with still a long journey up the learning curve and through 30 years of asset life to deliver expected recoveries. The discussion will touch upon background and design basis of the project including subsurface, facilities, D&C and Production Operations. It will then cover early life performance of the assets, upcoming milestones, best practices and lessons learned across multiple disciplines. Some of the technologies discussed will include well completions, subsea multiphase flow meters, subsea sampling capability, subsea boost pumps, flow assurance, topsides reliability, and reservoir surveillance & analysis techniques.

Travis Flowers is an Asset Manager for the Jack / St. Malo fields at Chevron North America Exploration and Production Company at the Gulf of Mexico Business Unit located in Covington, Louisiana. He graduated with a Bachelors of Science in Mechanical Engineering from the Colorado School of Mines in 1998. He began his career with ARCO Alaska on the North Slope as a Facility Engineer in the Prudhoe Bay Field. After two years, and upon the BP-ARCO takeover in 2000, he moved to Midland and was converted to a production engineer working Texaco and ChevronTexaco's Delaware Basin assets.

In 2005 he began a rotational assignment to Malongo, Angola as Production Engineering Team Lead for Chevron operated offshore Angola assets. After five years in Malongo, moved with his family to Sumatra, Indonesia in 2009 as Asset Team Leader for light oil fields of Central Sumatra and later the Duri Heavy Oil Steamflood. More recently, in 2014, he received the honor of leading the newly formed Jack/St. Malo Asset Team, located in Covington... to help steward the early life of these new assets that you will get a chance to hear more about today. His wife, Tina, also a Mines graduate and former Chevron production engineer and their two children, Ashley and Gavin, are enjoying all of the culture, climate and cuisine that Louisiana has to offer.

PIPE FAMILY FUN EAT & RUN 5K

API, as a member of PIPE (Petroleum Industry Promoting Education), was a sponsor of this inaugural family event held on Sunday, May 15, 2016 on the City Park Festival Grounds across the street from the location of the future Louisiana Children's Museum's (LCM) Early Learning Village, which is scheduled to begin construction later this year. The proceeds of the event will be distributed to the LCM, the Children's Museum of St. Tammany on the Northshore, and the Bayou Country Children's Museum in Thibodaux.

A total of 385 entrants participated in the event with many family and friends supporting their favorite runners. There were bountiful food and beverages supplied by many industry service companies (20 food/beverage tents) for all to enjoy, plus karaoke and three inflatable bounce houses to keep the small tykes entertained. Each child also received either a toy for winning a race or a door prize toy. The weather could not have been better with a cool morning, nice breeze, and low humidity. New Orleans Running Systems provided the professional touches for the races including registration and run time results (measured with timing chips). Many thanks to all of our sponsors!

First Male at the Finish Line

First Female at the Finish Line

Age Bracket Winners with Mascot "Coco"

2016 SPORTING CLAYS TOURNAMENT

The API Delta Chapter hosted the 12 annual Sporting Clays Tournament on April 22, 2016 at the Covey Rise Lodge in Husser, Louisiana. The weather was a concern but cooperated very nicely throughout the Friday morning. A great time was had by everyone.

We all know that 2016 has been a very difficult year in the oil industry; however, many of the faithful participants from years past came out in support. There were a total of 16 teams that competed this year. Even with the attendance understandable down, the tournament was a tremendous success. The API Delta Chapter extend its utmost gratitude for all of you how attended and contributed to this event.

The sporting clays event and the annual API golf tournament generate funds needed by the API Delta to support our local community in a variety of institutions. The API Chapter uses these funds to financial support the Louisiana Children's Museum, Children's Museum of St. Tammany, student scholarships, teacher awards and grants, and several local programs that emphasize educating children in the areas of math and science.

So a special thanks goes out to all the volunteers that made this event safe, fun and successful. There is a lot of hard work and time given behind the scenes to organize and execute this event. Also, many thanks to B&B Rentals and Mid-South Technologies for a Gold Sponsorship, Tetra and LLOG for a Silver and Cetco for an appropriate "hard times" sponsorship and Cetco for donating a weekend condo stay in Portafino for raffle. We also recognize and appreciate the many who sponsored stations, and Supreme for donating gift cards and Quality Energy Services for providing T-shirts. And let's never forget about our food sponsors. What would a tournament in South Louisiana be without food! A special thanks goes to Hudson Services who provided breakfast and lunch. Thanks to the ULL and LSU students who came out to help at the stations. And last but not least, Jimbo and his staff at Covey Rise Lodge did a tremendous job hosting this event.

We wish the best to everyone and look forward to a prosperous 2017.

2016 MERITORIOUS SERVICE AWARD LUNCHEON

Honoring Tom Bergeon, Senior Geologist

The Meritorious Service Award Luncheon was a resounding success. API Delta would like to extend a warm thanks to the 60+ guests in attendance to witness a well deserving Tom Bergeon receiving the day's honor. Before Tom's introduction, the attendees had the pleasure of hearing from three special guest presenters; Lisa Barnett, President, Children's Museum of St. Tammany, Julia Bland, Executive Director, Louisiana Children's Museum and Rick Fowler, Chairman, PIPE Committee. These representatives gave an outstanding presentation showing the progress and continuous efforts towards the completion of each museum. Lisa Barnett gave fundraising updates, shared her board's travel experiences, as well as a virtual tour of the much anticipated Children's Museum of St. Tammany to be located in Covington. Julia Bland presented the recent efforts of LCM as they near the ground breaking for the new learning center in City Park. Rick Fowler spoke of the unique opportunity the Oil & Gas industry has to pique the interest of young minds and engage families in our industry through exhibits within the museums. Through the Petroleum Industry Promotion Education (PIPE) Committee, tens of thousands of dollars have been donated to each museum to create interactive STEM exhibits relating to energy creation and daily applications.

Tom Bergeon's community involvement and outreach efforts were eloquently expressed in his introduction by Jan Catalano. Tom humbly received the Meritorious Service Award with an applause from colleagues and industry peers. He thanked his parents for accompanying him to museums and fostering his geological interests. He also thanked NOGS for their unwavering support throughout his career in Louisiana. Tom gave mention to several of the initiatives he has chaired and participated in to further advance STEM initiatives closer to the community around us. It is only through the dedication of individuals like Tom Bergeon that our educators and young learners will have the opportunity to learn more about where energy comes from and how it touches our everyday lives.

GREATER NEW ORLEANS SCIENCE AND ENGINEERING FAIR—GNOSEF 2016

In 2005, the API-Delta Chapter initiated a Special Award relating to the oil and gas industry for the Greater New Orleans Science & Engineering Fair in an effort to promote interest in and support the petroleum industry. Our goal, through our generous awards and recognition of teachers and students was to help establish a strong petroleum science category. Not enough projects are submitted to start a Petroleum Sciences category and the API judges have chosen winners from exhibits whose subject matter pertains to energy topics. The award is included in the Local Award category and provides monetary contributions for the recipients of the awards and their teachers.

The Greater New Orleans Science & Engineering Fair was held February 23-25 at the Human Performance Center of the University of New Orleans campus.

API Delta Chapter Board members Paul Wieg and Carlos Guzman judged the exhibits and presented the awards on behalf of the membership. Congratulations to all of the 2016 Science & Engineering Fair recipients!

This year's awards and recipients include:

CHAIRMAN'S AWARD

Mr. Hayden Waldvogel received \$125 for his exhibit entitled "What Is the Best Way to Clean up Oil from an Oil Spill." Mr. Waldvogel attends Holy Cross High. Mr. David Westfall, Mr. Waldvogel's teacher was also presented a monetary award.

DISTINGUISHED PROJECT

This was awarded to Mr. Mason Varuso for his project "How Does the Thermal Conductivity of Liquids Affect Heat Absorption in Photovoltaic Troughs." Mr. Varuso who attends the Patrick Taylor Science and technology Academy and his teacher, Ms. Janell Simpson both received a \$75 award.

HONORABLE MENTION AWARD

This award went to Mr. Michael Glaser for his exhibit "The Effect Of Liquid Cooling On The Energy Efficiency Of Solar Panels." Michael and his teacher Ms. Burchette of Ben Franklin High School received the awards.

Chairman's Award—Hayden Waldvogel

Distinguished Project—Mason Varuso

Honorable Mention—Michael Glaser

THE 2016 API TEACHER AWARD PROGRAM

Each year, the American Petroleum Institute (API) Delta Chapter recognizes distinguished educators from the school districts in our regions. The 2016 spring recognition reception was held June 7th at the Louisiana Children’s Museum (LCM). Julie Bland, the LCM CEO, welcomed the teachers and their guests to the museum. API Chairman Tessa Wiggins presented certificates and checks.

The API Teacher Award Program was established by the Delta Chapter in 1987 to pay tribute to and reinforce outstanding teaching in the metropolitan area. There were several years following Katrina when the awards were not presented. Since the institution of the awards program there have been changes in the programs process and geographic reach.

What has remained constant is the API commitment to classroom teachers by encouraging excellence and recognizing the untiring efforts of educators who provide quality services to students with minimal compensation and, often, supplement materials using their own resources. The annual API program uses three categories: Service in Teaching Award (\$200), Distinguished Teacher Award (\$300), and Chairman’s Award (\$500) to honor commitment to teaching, resourcefulness, professional involvement and community service.

Teachers, who are nominated by the district leadership teams, complete and submit an application packet. A committee of API Delta Chapter members review, score and rank the application packets using a selection criterion which includes commitment to teaching, resourcefulness, professional involvement and community service.

Saint Charles Recipients

Attendees at Louisiana Children’s Museum

Private Parochial Recipients

THE 2016 API TEACHER AWARD PROGRAM

DISTINGUISHED SERVICE TO EDUCATION

This is a rather new API award and may not be given every year. A donation is made by API to a program selected by the awardee. This year's awardee is Kenneth Hoffman. API will make a \$1,000 donation to the WWII Museum in Kenneth's name. Kenneth is the Education Director of The National World War II Museum. Under his direction the WW II Education staff provides academic year and summer opportunities and experiences for teachers and students in all the districts served by the API Delta Chapter. To give a short list of their efforts Kenneth and his staff provide distance learning "virtual" experiences, on-site field visits, annual robotics tournaments for middle school students, summer camps in a variety of programs and for various ages.

SERVICE IN TEACHING AWARDS

Quay Brisco – St. Tammany

Quay teaches physical science honors at Slidell. Quay is FIRST Robotics Mentor Teacher which means hours of raising money for the team in the community, and after school preparing for the competition in the spring. During summers Quay Director of the New City Leadership Camp working with over 300 at-risk children ages 6-17.

David Cash – Orleans

David is a Social Studies instructor at McDonogh 35 Senior High. David understands every student is different and each day brings new challenges both at home and at school. His principal noted the rigorous and meaningful student centered lessons David prepares.

Angela Charles – Jefferson

Angela Charles is a math science teacher who dedicates her best efforts to make sure William Hart Elementary is a school that empowers students for success. Her focus is to have her students want to continue to learn. She has served the Hart School community as a teacher, parent, and mentor to so many. She wants to be better able to serve her English Language Learners.

Sandra McCullough – St. Charles

Sandra works at J. B. Martin Middle School where she teaches students with special needs and significant disabilities. Where the school administration expresses admiration for her leadership, enthusiasm and dedication toward educating all students Sandra would say she is the fortunate one. Sandra is a member of the LCM.

Wendy Roussel – Lafourche

Wendy is a Physical Education teacher at Thibodaux High School. Her assistant principal describes her commitment to excellence as extraordinary. She is a mentor teacher with new and veteran teachers often observing her classes where she serves as a model of teaching and learning. She collaborates with her colleagues during Professional Learning Community meetings.

Alison Schroeder – St. Bernard

Alison is an English III and IV instructor at Chalmette High School where she is the driving force behind the school's Key Club. Alison believes collaboration is a critical key to successful teaching. She has been both a Data Team and Professional Learning Community Leader working with her colleagues to improve successes.

Patrice Torres – Private/Parochial

Patrice is an elementary teacher with 35 years of experience at St. Mary's Nativity in Raceland. Her principal counts on Patrice for her support and expertise. Because Raceland is a small community Patrice noted she always seems to meet people she taught or who have family members she is teaching now.

THE 2016 API TEACHER AWARD PROGRAM

DISTINGUISHED TEACHER

Charlene Byrd – Jefferson

Charlene is an 8th grade science teacher at John Adams Middle School. Her students have participated in FIRST LEGO LEAGUE Robotics and the GNOSEF. She has participated in the Summer Materials Science Institute with CORE Element. Recently she completed the Offshore Energy Facilitator Training focusing on the importance of petroleum based products.

Lauren Frazier – St. Bernard

Lauren is a fourth grade teacher at Chalmette Elementary where she recently planned the May field trip for the entire fourth grade at the school to come to the LCM. Her philosophy comes from Yeats "Education is not the filling of a pail, but the lighting of a fire." The district Elementary Supervisor writes Lauren's real passion is in the classroom on a full time basis.

Veronica Fucich – St. Tammany

Veronica is at Bonne Ecole Elementary and teaches 3rd, 4th and 5th grade students. Her active learning techniques allow her to differentiate her lessons to reach all students providing supports and rewards. Outside the classroom she is part of the effort to bring robotics back to the school and bringing more confidence to her as a teacher of science and math.

Lori Gonzales – Lafourche

An English Language Arts teacher, Lori is on the faculty of Raceland Middle School. She believes teaching and counseling go hand in hand. The letter of support from the NIET Tap Mentor strongly states "Anyone would want her child taught by Ms. Gonzales where a respectful and risk free environment has been created."

Tara Gustin – Plaquemines

Tara is a self-contained elementary teacher at Belle Chasse Primary School. Her principal, a colleague of 11 years, shared Tara's dedication to her students, her willingness to dig deep into the standards, and her untiring drive make her an outstanding teacher.

Ann Robichaux – Private/Parochial

Ann is an earth science teacher at Vandebilt High School. Her principal expressed admiration for Ann's participation in professional development opportunities to improve her techniques, teaching strategies and classroom effectiveness. She is interested in including more engineering and math in her lessons.

Dixie Todaro – St. Charles

Dixie is an elementary teacher at Mimosa Park and "believes that once individuals feel valued and engage in their own learning, success can be achieved." Through the use of differentiated instruction, she provides appropriate instruction for her students of diverse backgrounds and socioeconomic status because she knows every child can learn.

THE 2016 API TEACHER AWARD PROGRAM

CHAIRMAN'S AWARDS

Alisha Capstick – St. Bernard

Alisha is an earth science teacher at Trist Middle School. She has served as a member of the Core Element Teacher Focus Groups. Her principal speaks to her unyielding dedication to students and the profession. Alisha is a member of the district curriculum team. She sponsors the Jr Beta Club which has been recognized as a Distinguished Club. A second generation teacher, Alisha's mother is here with her today.

Byrian Collins – Orleans

Byrian is not a stranger to the LCM. A teacher at Mahalia Jackson elementary school she has brought student groups to the museum. Her principal indicates Byrian has a natural ability to teach, motivate and inspire students. In addition to her teaching duties she serves on the Leadership Summit Committee.

Roma Kerby – Plaquemines

Roma is an Algebra teacher at South Plaquemines High School. In just three years she has raised the proficiency rate of Algebra I students at the school to 94% and been scored highly effective in the evaluation process. Roma is dedicated to reaching all her students.

Mandy Martin – Lafourche

Mandy is a first grade teacher at Raceland Lower Elementary School. As a self-contained inclusion classroom educator she does it all...math, ELA, social studies, science, and reading. Mandy is a Teacher Leader for her school and the district. She has been named Lafourche Parish Elementary Teacher of the Year.

Gerard Nugent – St. Charles

Gerard teaches American and World History at Hahnville High School. Recently he had to adjust to the change of his course from the junior to freshmen level. His high energy level is viewed when realizing he not only chairs the social studies department at Hahnville he is President-elect of the St. Charles Reading Council he is also head softball coach for the school. A second generation teacher Jerry's father is here with him today.

Suzanne Nugent – Jefferson

Suzanne is a Special Needs teacher at TH Harris Middle School where she is also the Extended Year Coordinator for her students. Her principal describes her as one of the few who shine as stars in the art of educating students. Evidence of her role as a leader at the school is found in her Training as Compass Evaluator and service on the TAP Leadership Team.

Summer Skarke – Terrebonne

Summer comes from Lacache Middle School where she teaches Reading and English and is one of the Schools Teacher Leaders. She provides her students with important community service opportunities raising funds for CASA, collecting items for Restoration for Hope. As a volunteer she has developed curriculum for the Wetlands Discovery Center and facilitated Wetlands Youth Summits.

Jerrilyn Swett – St. Tammany

Jerrilyn is a self-contained teacher at Lancaster Elementary School. Most of her lessons are completed in an I Do, We Do, You do pattern and technology plays a large role in her instruction. She has found funding for class projects through the Donor's Choose program. She is always searching for new ideas and challenges.

Amy Tassin – Private/Parochial

Amy Ory Tassin teaches Biology and AP Biology at Jesuit High School. The Director of PD indicates Amy's 15 years at Jesuit High School have been distinguished by excellence in the classroom and service to the school community.

API DELTA ANNOUNCES SCHOLARSHIP WINNERS

The American Petroleum Institute – Delta Chapter Scholarship Committee recently announced the winners of this year's President's Scholarship Award for 2016–2017 school year. The API – Delta Chapter scholarship program is designed to help students of exceptional promise to reach their full potential through education. Scholarships are awarded for a wide variety of experiences, career goals and higher education plans. Candidates pursuing careers in Math, Science and Engineering will be given a higher preference.

The API – Delta Chapter understands the financial challenges facing college students today. Funds from the annual Sporting Clays and the Golf Tournaments help to fund the scholarship program.

The scholarships are given for a wide variety of experiences, career goals and higher education plans. Scholarships are awarded to incoming College Freshmen or a student who is currently attending a four-year accredited college, working towards a Bachelors or Masters degree.

The winners this year are:

Blake Baker
Kenner, LA
Louisiana State University

Nathan Pearl
Mandeville, LA
Louisiana State University

David Paternostro
Kenner, LA

The API Delta Chapter of New Orleans, LA is proud to announce that our annual Golf Tournament is scheduled for Friday, **September 16, 2016**, at the **Covington Country Club** located in Covington, LA. Registration will begin at 7:00 AM and Tee off time is 8:00 AM.

This year the tournament will be limited to one morning round, filled on a first-come, first-serve basis. The entry fee is \$740.00 per 4-man team. The tournament format is a 4-man scramble, blind bogey.

A registration form and sponsorship flyer is enclosed. You can also go to our website www.api-delta.org for tournament information and forms. Payments can also be made on the website via PayPal.

Proceeds from the tournament are used to support API Delta Chapter activities and programs, awards, scholarships and the ongoing promotion of the petroleum industry in local schools and universities. Through your generosity and participation API Delta Chapter has been able to provide ongoing support and funding for programs such as the following:

- Scholarships (\$20,000 in 2015) for local high school graduates and college students supporting industry related degrees.
- The Louisiana Children's Museum where API Delta sponsors the Energy Exhibit.
- Mini Grants program to teachers, designed to help fund the purchase of supplies and teaching equipment.
- The Teacher Excellence Awards program which recognizes outstanding educators in the Greater New Orleans Metropolitan Area.
- The Energy projects division of the Greater New Orleans Science & Engineering Fair was started by our Chapter. Monetary awards recognize students with winning science projects in the energy category, along with their teachers and schools.
- The annual API Meritorious Service Award which recognizes local individuals for their outstanding service and leadership in the oil and gas industry and community service.

Your support of the tournament is greatly appreciated and helps API-Delta Chapter continue its efforts to promote the petroleum industry in the region.

We look forward to seeing you at this year's API-Delta Chapter Golf Tournament and thank you in advance for your generous support.

Sincerely,

Steve Freeman & Barney Paternoastro
