

FETCH! Oil and Energy
Louisiana Children's Museum
Saturday, July 25, 2009

Energy industry societies are once again pooling their efforts together under the umbrella name of PIPE (Petroleum Energy Promoting Education) to sponsor energy education. On July 25, 2009, PIPE will participate with the Louisiana Children's Museum (LCM) **FETCH Oil and Energy Saturday**.

On the third Saturday of each month, the LCM transforms into a science challenge lab where children investigate the world around them using the power of play as their number one tool. The Energy FETCH Challenge introduces young visitors to energy and its daily use, theme being Oil and Energy. Children and adults learn how fundamental energy is through age appropriate FUN activities.

This year PIPE will sponsor the event and various oil industry societies will provide highlights of their industry. The Delta Chapter of American Petroleum Institute (API) will feature exhibits and presentations from their Energy & Society guide in conjunction with Project Learning Tree. Society of Petroleum Engineers – Delta (SPE) will provide visual examples of porosity. The New Orleans Geological Society (NOGS) is showcasing their oil finders game, fossils and rocks. Desk and Derrick (D&D) will feature their Petro Molly Activity Book. These are just a few of the interactive displays that will be available to introduce the oil industry to children. Other activities include creating an Enviro Battery, static powered neon lights, fossil digs, chocolate chip cooking mining. Information will be available for parents and teachers, as well.

Please plan to visit the Louisiana Children's Museum at 420 Julia Street on Saturday, July 25. This is a great opportunity for children (and parents) to learn about the energy industry and its many disciplines.

Participants of PIPE include:

American Petroleum Institute - Delta Chapter
Council of Petroleum Accountants Societies of New Orleans
Desk and Derrick Clubs
Harvey Canal Industrial Association
National Association of Corrosion Engineers
New Orleans Geological Society
Offshore Oil Scouts Association
Professional Landmen's Association of New Orleans
Society of Independent Professional Earth Scientists - New Orleans Chapter
Society of Petroleum Engineers - Delta Section
Society of Petrophysicists and Well Log Analysts
Society of Women Engineers
Baker Hughes
The OCSBBS Website
Schlumberger
Shell Exploration & Production Company
